EXPERIENCE

Amazon Web Services / UX Designer II

Seattle, WA / May 2020 - Present

- Driving the end-to-end UX direction for AWS' internal Financial Automation products. Currently owning the UX roadmap for a new automated financial P&L solution that will support a user base of 10,000+ finance analysts / managers within AWS Finance.
- Delivered the v.1 designs for AWS' internal automated financial P&L solution within 4 months of joining the team. Drove the end-to-end UX design process from problem framing, user research, iterative design, usability testing, dev handoff, to implementation QA.

Oracle Cloud Infrastructure / Sr. UX Designer

Seattle, WA / Sep 2018 - May 2020

- Owned the end-to-end UX direction for OCI's internal SecurityOps products. Partnered with cross-functional leaders to develop the UX strategy for OCI's SecurityOps organization.
- Collaborated with service team partners (technical program managers, product managers, engineers etc,) to remove design blockers through cross-teams communication.
- Helped launch v.1 of OCI's internal security monitoring and tracking solution. Onboarded 80% of internal engineering teams within 2 months of launch.

Oracle Cloud Infrastructure / UX Designer

Seattle, WA / Aug 2017 - Sep 2018

- Partnered with cross-functional stakeholders to conduct user research and craft UX solutions for the delivery of customer-facing DBaaS, Compute, Networking, and Storage features (supported the closure of three major customer sales deals).
- Collaborated within the UI Platform team to help define, produce, and componentize a new design system and pattern library for designers and engineers' usage across OCI.

Microsoft (via Filter Digital & Blueprint Technologies) / UX Designer

Redmond, WA / Oct 2016 - Jun 2017

- Collaborated with a product manager and primary users to ideate a concept from the ground up for Microsoft's internal Sales & Account Management CRM tool.
- Partnered closely with the Microsoft IT team to develop interactive prototypes through multiple rapid iterations of design and usability tests. Presented them to business, product, and engineering executives, as well as users at Microsoft Ignite 2017.

GE Energy Connections / UX Design Intern

Redmond, WA / Jun 2016 - Sep 2016

- Redesigned a mission critical software used by electrical grid operators to simulate power distribution environments for climate disaster response training.
- The project entailed the exploration and production of new feature designs based on modern usability and interface design standards, as well as overall usability improvements. The final design proposal was presented to business, product, and engineering leadership.
